FOR IMMEDIATE RELEASE

Lane Closures on Ventura Freeway (US 101) for Pavement Rehabilitation

LOS ANGELES – The California Department of Transportation (Caltrans) will reduce lanes and close ramps on north- and southbound US 101 to install new pre-cast concrete slabs, repave lanes, and install new guardrail, and hardscape. Motorists should expect delays and consider alternate routes. Lane and ramp closures will occur at the following locations:

Nightly, Thursday, June 16 through Saturday June 18

- 8 p.m. to 6 a.m. – Southbound US 101 Liberty Canyon Road on- and off-ramps
- 10 p.m. to 6 a.m. – Up to 4 lanes of northbound US 101 between I-405 and Parkway Calabasas
- 11 p.m. to 6 a.m. – Up to 2 lanes of southbound US 101 between I-405 and SR-170

Saturday, June 18

- 8 p.m. to 11 a.m. - Up to 3 lanes of northbound US 101 between Parkway Calabasas and Las Virgenes Road

The pavement on north- and southbound US 101, connectors, and ramps will be rehabilitated by using rubberized hot mix asphalt, Portland concrete cement, and pre-cast concrete slabs. The existing metal beam guardrail (metal and wood barriers) will also be replaced to enhance safety.

This \$62 million contract was awarded to Myers and Sons Construction, LP of Sacramento, California. The project is funded by the State Highway Operation and Protection Program (SHOPP). The project is expected to finish in fall 2016.
